- ☆ Emerging Resistance to include: VRE, MRSA, and VRSA
- ☆ Emerging Viral Diseases including: Smallpox, Monkey Pox, SARS, and flu
- ☆ Case Studies will be used as the final segment

Length: 1.5 hour lecture, 0.5 hour question/answer

Fee: \$20 site fee—**Free to our valued sentinel laboratories...**The KSPHL will pay this registration fee for all labs that would like to participate. When you receive the registration form please fax it back and we will register everyone at the same time.

Other: Handouts will be on the web for download

**WE WILL SEND OUT MORE INFORMATION AS
SOON AS IT BECOMES
AVAILABLE**

TRICK OR TREAT TIPS

- ① Only buy candy that you like
- ② Chocolate is a good bet
- ③ Don't buy your candy too early, it might disappear
- ④ Be creative, pumpkin carving is a relaxing way to spend an hour.

Enjoy!!
Halloween isn't just for kids!

CAP SURVEY

The Laboratory Preparedness Survey for 2005 has been ordered. If your laboratory is participating and you receive an invoice, please disregard. We are working with CAP on sending the KSPHL invoices.
